Acclamation For Mayor D. Leeming Sets New Record

Is First Chief Magistrate to Hold Office For Five Successive Years; Ten Candidates For Council and Seven For School Trustee, Nominations To-day Reveal

MAYOR DAVID LEEMING

For the first time in the city's history, Victoria to-day returned a mayor for a fifth successive term. When nominations closed at 3 o'clock to-day, the present incumbent, David Leeming, was the only candidate listed for the post of chief magistrate.

His acclamation assured Mayor Leeming of his fifth term at the helm of the City Council, but aldermen whose terms expire at the end of this year face a lively contest with ten aspirants for the five seats. In the school board list the tight promise to be mayor as been, with seven candidates seeking four seats. Election day will be on December 12.

possibility of a contest for the mayoralty ended early to-day when G. B. Crump, who had taken out papers, announced he would not oppose Mayor Leeming this year.

TRUSTEE CANDIDATE WITHDRAWALS
Withdrawal of P. J. Riddell from the school lists was offset by the late entry into the field of John Wallace, who filed papers shortly before noon to-day.

Mr. Riddell decided not to run when, after consultation with his solicitor, he learned his possible election would probably lead to litigation. A former superintendent of buildings and grounds for the school board, he retired this year on pension. Part of that pension is paid by the city, and it was understood that would deter him from holding office if he secured the support of the electorate.

To-day marked the second year in five Mayor Leeming has been elected by acclamation. He first took office in the 1932 election, in which E. B. Andros was his most serious challenger. He defeated the same opponent in 1933, and was returned by acclamation in 1934. Last December he secured a one-sided victory over W. H. Sargent, and raised his total successive terms in office to five to-day.

BANK ROBBED IN ONTARIO

Safe in Uxbridge Blown During Night and \$5,000 Taken; Bandits Escape

Canadian Press
Uxbridge, Ont., Dec. 5.—The janitor of the Canadian Bank of Commerce branch in this town, fifty miles north of Toronto, found the vault blown open, and \$5,000 missing when he opened the building to-day.

Working in the night, the robbers jammed a back window and went to work on the vault, using an electric drill to make holes for the charges of nitroglycerin which blew up the massive doors and allowed them to enter the vault.

Police said apparently no one heard the explosion from outside. Provincial police officers from Toronto were assigned to aid the local police.

SAILORS LOST IN STORM OFF ITALY

Rome, Dec. 5 (Canadian Press from Havas).—A number of sailors are feared to have perished in a storm which caused heavy property damage along the Tuscan coast to-day.

Reginans Hear Their City Called Sleepy

At Riot Inquiry Letter One of Trek Leaders Wrote Is Read

Canadian Press
Regina, Dec. 5.—Description of Regina as a "sleepy prairie city shaken into a new realization of a world on the move" by the On-to-Ottawa trek, provided a lighter touch in the proceedings to-day of the royal commission inquiring into the Dominion Day riot here.

The description was read to the inquiry by B. D. Hogarth, K.C., counsel for the federal government and the Royal Canadian Mounted Police, from a letter sent from Regina late last June by Matt Shaw, trek leader, to the Relief Camp Workers' Union at Vancouver.

The letter was seized by R.C.M.P. in a raid July 1 at Vancouver. Shaw identified it, but not another letter, seized in the same raid, from the publicity committee of the strikers, and initiated "M.S.B."

SOMETHING NEW
The trek experience was "something entirely new for this sleepy prairie city," said Mr. Hogarth, reading from the letter.

"I think 'sleepy' describes it," said Shaw from the witness stand.

"Did you intend to be complimentary?" asked Judge A. E. Dyck, one of the commissioners.

J. I. MFARLAND REVIEWS WORK

Regrets He Cannot Complete Year's Operations as Wheat Board Head

Canadian Press
Winnipeg, Dec. 5.—"I hope I may be excused if I express my one and only regret, namely, that events over which I had no control now prevent me from completing this year's operations as chairman of the Wheat Board," John I. McFarland said in a statement issued to-day in connection with his resignation from the board at the start of this week.

McFarland went on to say he felt quite certain the Canadian people were aware he was not deserting the ship voluntarily at this time.

NEW BOARD
On Tuesday the government at Ottawa announced a new Wheat Board to replace the former one, which had resigned. The new board is composed of James R. Murray of Winnipeg as chairman, George H. McIvor of Winnipeg, vice-chairman, and Dean A. M. Shaw of Saskatoon, third member.

Mr. McFarland's statement said: "Over five years ago, in November, I was elected to the position of chairman of the board."

Searchers Find No Trace of Boy

Canadian Press
New Westminster, Dec. 5.—Despite an all-night search by fifty members of a search party, and further efforts to-day, no trace has been found of four-year-old Bob Dahling, son of Ernest Dahling, Essondale Mental Hospital attendant, who disappeared yesterday afternoon.

The boy had been with his father, who was cutting wood near the Essondale school. He strayed off into the dense fog that blanketed the district. With him were his two dogs, which also disappeared.

Canadian Press

Associated Press
New York, Dec. 5.—The New York Evening Journal said to-day it had learned from a source close to Governor Harold G. Hoffman of New Jersey that he has obtained new information which may save Bruno Richard Hauptmann from the electric chair, "or at least delay his execution indefinitely."

The Journal said it was reported the information in the Governor's possession may become the basis for "the most shocking story ever brought before the American people."

SOCIAL CREDIT DEMAND VOICED

Canadian Press
Edmonton, Dec. 5.—The Alberta government to-day was in receipt of a resolution from Pagan farmers in the Smoky Lake district urging immediate consideration of the \$25 per month dividend payments, part of the platform on which the government of Premier Aberhart was swept into power last August.

LIFE OF LAVAL CABINET SAVED

Paris, Dec. 5.—Premier Laval to-day accepted the demands of the Radical Socialists for action against semi-military political forces, thus saving the life of his cabinet.

The premier's acceptance "with minor reservations" was announced by Edouard Herriot, former Premier and leader of the demanding leftists, after a conference with M. Laval.

There was an immediate softening of Radical Socialist hostility toward the cabinet.

New Camouflage for Japanese Guns

Units of the Japanese army are introducing new methods at their manoeuvres. Artillerymen such as the one pictured above work under huge nets in which grasses and twigs plucked from the nearby fields are stuck to conceal them and their guns from aerial observers. The natural color of this camouflage is believed to be more effective than the crazy looking painted designs used in the Great War.

Wharf Strike In Vancouver To Be Called Off

Vancouver and District Waterfront Workers' Association Members, Idle Since June, Will Apply For Work Next Monday

Canadian Press
Vancouver, Dec. 5.—Strike of the Vancouver and District Waterfront Workers' Association, which has prevailed on the waterfront here since June 4, will be called off on Monday, Dec. 9, at 8 a.m., longshore officials announced to-day.

The strike began when longshoremen refused to work "bunkie" cargo loaded at Powell River B.C., where the local waterfront union had announced differences with the Powell River company. The Shipping Federation of British Columbia declared the V.D.W.W.A. had broken its working agreement and it refused to recognize the union further.

A new union, the Canadian Waterfront Workers' Association, was formed and waterfront work was carried on under police protection. Picketing was general on the waterfront and one major disturbance occurred June 18 when strikers and their sympathizers attempted to march on the Ballantyne Pier.

INJURIES IN RIOT
The marchers were halted by a large police force and a riot ensued with a number of police officers and civilians being injured. Several rioters were arrested and later sentenced to varying jail terms.

The longshore officials, in their statement to-day, announced members of the V.D.W.W.A. would apply for work at Pictou dispatch offices, but would maintain their own union.

Foreign Secretary Asks Mussolini Move For Peace In the Ethiopian Field

ITALY STUDIES PROPOSALS

"Suggestions" For Settlement With Ethiopia Offered By French Premier

Associated Press
Paris, Dec. 5.—Premier Laval gave Italian Ambassador Vittorio Cerruti a "set of suggestions" for an Italo-Ethiopian settlement, diplomatic sources said to-day, representing France and Britain's last word before an oil embargo is applied.

The communication, a spokesman for diplomatic circles said, was delivered by France's premier to Italy's ambassador at a conference late yesterday, called presumably to discuss French desires that Premier Mussolini make some move toward peace before the December 12 League of Nations meeting to consider oil sanctions.

ONLY AN OUTLINE
The Franco-British proposals were in no sense fixed plans for peace in East Africa, this source said, but were presented in the form of "suggestions" to forestall any possibility of complete rejection by Il Duce.

London, Dec. 5 (Canadian Press from Havas).—Orders for Home Fleet units to put to sea from Gibraltar have no connection with the Italo-Ethiopian war, it was said at the Admiralty to-day.

It was explained that in the interests of efficiency it was decided to order on a routine cruise units long held motionless in the harbor of Gibraltar.

The public of Victoria flocked in thousands to the Bay Street Armories yesterday afternoon and evening to get its first glimpse of the great four-day Winter Fair sponsored by the Tourist Trade Development Association, to look at the displays of local firms in the forty-eight modernistic booths, and to sample the attractions of the midway.

The official dedication of the fair took place at 8 o'clock last night, although doors had been open since 2 o'clock in the afternoon.

The congratulations of the provincial government to the Tourist Trade Development Association and to its secretary, T. H. Edick, were brought by Hon. A. Wells Gray, Minister of Lands, speaking on behalf of Premier T. D. Pattullo, who is absent in the east.

Mayor David Leeming, Mrs. Leeming and Miss Janet Gray accompanied the minister at the ceremony. Mayor Leeming stressed the value of the fair as an advertisement for locally-manufactured goods, and also as a winter entertainment feature. He paid tribute to the work of Mr. Edick in planning and staging the event.

Music, prior to the ceremony, was provided by the newly-formed bugle band of the 5th (B.C.) Coast Brigade, led by Lance-Sergeant J. E. Wilson.

EDUCATION AND ETHICS THEME

"Is Modern Education Unethical?" formed the subject of a discussion held recently under the auspices of the Victoria Anti-Vivisection Society, at the home of Madame Vivenot.

Various readings were contributed by those present and it was pointed out that book-learning is being mistaken for education. Too much emphasis, it was thought, was being laid on the importance of college and university training. There seemed to be a prevailing, but erroneous, idea that persons who had not received such training were not educated. It was pointed out that the modern

system was competitive and this was fatal to true education. Under present conditions the training of the heart was almost entirely neglected. Animal experimentation, which was associated with curiosity, greed, blood-lust, love of notoriety and fame was the antithesis of true education and promoted callousness of feeling, speakers said.

If children, it was argued, were trained in ways and thoughts of kindness in their impressionable years, civilization would definitely progress. The views of Dr. A. F. Hurst were quoted, as follows: "A general deterioration of intelligence is in progress all over the world, in spite of a parallel existence all over the world of a general increase in education."

Information regarding the work of the anti-vivisection movement may be obtained from the honorary secretary, Miss Dora Kitto, Canadian Anti-Vivisection Society, 315 Bayward Building, it was stated.

VOTE AGAINST DAYLIGHT SAVING MOTHERS!

If Daylight Saving is put into effect, this is what it will mean. Children will be deprived of their proper rest because they will naturally want to play as long as daylight lasts. That will be 10 o'clock Daylight Saving time! For little children it is even worse. They will be put to bed when there are still two or three hours of daylight... and remember, too, in July and August it won't be the cool of the evening when little ones go to bed. It will be bright sunshine, and probably hot.

BRITISH COMMONS HEARS COMMUNIST

Associated Press
London, Dec. 5.—W. Gallagher, only Communist member of the new House of Commons, made his maiden speech in the House yesterday. He asserted the government would "double cross" both the League of Nations and Ethiopia "if it could make a deal with Italy."

Gallagher said Great Britain should have associated itself "with the

greatest peace power in the world—Soviet Russia."

As debate on the speech from the Throne, Jock McGovern, fiery Independent Labor member from Glasgow, attacked the means test.

"No means test is applied to members of the royal family," he said. "Why should it be applied to the workers of the country?"

SCHACHT AGAINST INFLATION

Leipzig, Germany, Dec. 5 (Associated Press).—Dr. Hjalmar Schacht told a convention of labor front officials yesterday he would resign as Minister of Economics rather than tolerate currency inflation. He pleaded for preservation of capitalism.

DEMOCRACY ON TEST, SAYS ICKES

Associated Press
Detroit, Dec. 5.—Secretary of the Interior Ickes yesterday declared economic security must be assured the average citizen if democracy in the United States is not to be supplanted by Fascism.

"Our rugged individualists have already undertaken an active and well-financed campaign looking toward a return to power, that will make it possible for them to continue to grow ever richer while the great mass of the people becomes poorer and poorer," he said. "I warn them that they are putting a lighted match to a keg of powder."

"The issue is Fascism or the America of the founding fathers," Mr. Ickes said.

Grain Acreage In Canada Increases

Associated Press
Ottawa, Dec. 5.—Wheat acreage increased in Canada this year despite governmental efforts to reduce it. It was reported yesterday by the Dominion Bureau of Statistics. Under the world wheat agreement, Canada undertook to reduce exports and discourage increased acreage through educational methods.

A substantial increase was shown in the estimated area sown to principal field crops this year, which totaled 55,645,190 acres against 55,087,820 in 1934.

Wheat occupied the largest individual area with 24,115,700 acres compared with 23,985,000 last year. Oats were next with 14,096,200 acres compared with 13,790,800 in 1934, and barley third with 3,886,800 acres against 3,612,500.

BRITAIN AND U.S. EXPLORE TRADE

Associated Press
Washington, Dec. 5.—Secretary of State Hull yesterday confirmed there have been exchanges of views between the United States and Great Britain regarding possible negotiation of a reciprocal trade pact.

He added at his press conference no formal discussions had been held and that the exploratory exchanges were in a very indefinite stage because of disturbed world conditions.

Similar preliminary studies are being undertaken concerning several other countries.

DEFROSTING OF APPLES TESTED

Okanagan Growers Try to Recover Some of Loss By Shipping to Prairies; Experiment Watched

Calgary, Dec. 5.—Apple growers of the Okanagan Valley in British Columbia whose crops suffered heavy frost damage are attempting to recover some of their loss in the prairie markets after an experiment in defrosting the damaged fruit.

Destined for prairie markets, 544,000 boxes of defrosted apples are moving from points in the valley, and first shipments were put on sale in Calgary yesterday. The growers are receiving 75 cents a case at the shipping point and shipments will be made as far east as Winnipeg.

Of interest to the growers, dealers and consumers, the experiment is being watched with interest. The ability to keep the fruit in condition is a major factor in the experiment. Its "keeping quality" is an unknown factor, at present and fruit handlers here are watching this angle closely.

Canadians In Berlin Attacked

A. Birney, Formerly of Vancouver, and K. Johnstone, Toronto, Assaulted

Toronto, Dec. 5.—In a dispatch from London, The Toronto Daily Star says two young Toronto men were assaulted by storm troops in Berlin last Sunday, one of their assailants explaining they should have saluted the Nazi flag.

The two are Alfred Birney, who graduated from the University of British Columbia and holds an M.A. from the University of Toronto, and Kenneth Johnstone, twenty-six.

Johnstone said their assailants dispersed quickly when it was realized the young men were foreigners. Police took the Toronto men to a police station and apologized.

Oil Concession Man Goes to Ethiopia

Associated Press
Paris, Dec. 5.—Francis M. Ricketts, the Briton who negotiated a vast Ethiopian oil concession from which the United States interests involved later withdrew, arrived in Paris by airplane yesterday when it was realized the young men were foreigners. Police took the Toronto men to a police station and apologized.

No Titles Ban For New Zealand

Wellington, N.Z., Dec. 5.—The new Labor government is not likely to alter the right of New Zealanders to accept titles, according to Michael J. Savage, who will be Premier. It was a tradition still holding a place in the hearts of many people, he said yesterday, but its importance could be overemphasized. He himself saw nothing wrong in the granting of honors.

BACK-TO-LAND PLANS URGED

Mayor Houde of Montreal Suggests Scheme For Whole of Canada

Montreal, Dec. 5.—During the interprovincial conference opening at Ottawa December 9, Mayor Houde will press for adoption of large scale back-to-the-land movements as a national measure to alleviate unemployment throughout the Dominion, he said here to-day.

As chairman of the continuing committee of the Conference of Dominion mayors, Mr. Houde will submit briefs in regard to relief, relief costs and other matters of municipal interest.

Mayor Houde said he would urge also some agency be found to provide proper livelihood for the itinerants who moved from one place to another in the hope of doing better—and who fall down between the relief which is denied them because of local rules and private charity, which cannot cope with these thousands of cases.

Drill Hall For Vancouver Units

Former Horse Show Building Being Remodeled By Defence Department

Vancouver, Dec. 5.—Work has been started on remodeling of the former Vancouver Horse Show Building at Georgia and Gifford Streets into a modern military structure to be known as the West End Drill Hall. Nearly \$25,000 will be spent in alterations to the building.

The work was ordered by the Department of National Defence, and it is expected it will be completed by February 1. The central area will be made into a parade ground measuring seventy-five by 180 feet. Modern military training equipment will be installed and a miniature rifle range will be constructed.

Military units which will make their headquarters in the building are the Irish Fusiliers, 11th Divisional Signal Corps, 11th Squadron, R.C.A.F. (non-permanent), and the 11th Machine Gun Battalion.

Japan Discusses Submarineless Navies

London, Dec. 4.—Admiral Asami Magano, chief Japanese delegate to the forthcoming international naval conference, stated yesterday that under certain conditions, Japan would be willing to abolish her submarines. Outlining the Japanese attitude prior to the opening of the conference December 9, Admiral Magano said the delegation's primary consideration was security for Japan.

Irish Debate League Position

No Claim For Geneva to Recognize Independence, Says Valera's Party

Dublin, Dec. 5.—A resolution demanding the Free State government should claim from the League of Nations recognition of its independence was defeated by a large majority at the convention of President Eamon de Valera's Fianna Fail party yesterday.

The motion also would have required the government to withdraw from Geneva if the League should fail to accord the recognition demanded.

Another resolution commending the present policy of the Free State government was carried with only one dissenting vote.

President de Valera declared if Irish membership in the League did not help, it was also true it did not hinder them working for the unity and independence of their country. They could not go to the League making vigorous demands. They could go only if there was a likelihood of the world's peace being affected by the matter in dispute.

NOT GENERAL COURT

The League could not listen to national appeals, said Mr. de Valera, unless there was a serious threat of war. Otherwise Geneva would become a court in which all sorts of questions would be brought up.

Replying to a question in the Dail yesterday, President de Valera said recent rumors of new negotiations with Great Britain were without any foundation. He was understood to refer to disputes involving the payment of land annuities and tariff rates which have remained unresolved since 1932.

Estate Duties To Be Collected

Toronto, Dec. 5.—Employment of informers to aid the Ontario government in its collection of succession duties, corporation taxes and other treasury levies was predicted yesterday evening by Premier Hepburn when he announced that an additional \$350,000 in succession duties had been recovered from the estate of the late Harold F. Ritchie.

"I warn these estates," said the Premier, "that we will not tolerate any attempt to escape making proper contributions to the province. In future 100 per cent penalties permitted under the Succession Duties Act will be enforced. In addition we are considering paying people who supply us with information respecting evaders."

Any arrangement of this kind, Mr. Hepburn added, would be patterned after the existing federal legislation. Negotiations in connection with the Ritchie estate settlement were concluded Tuesday. The \$350,000 already has been paid into the provincial coffers. Chester S. Walters, controller of finance, acted for the government. Hon. Newton W. Rowell, K.C., acted for the estate. An amicable settlement was reached.

Australian Planes To Hunt Ellsworth

failed on a transatlantic flight, November 23.

The New York Times and the North American Newspaper Alliance said F. Trubee Davison, president of the American Museum of Natural History, announced plans to rush emergency rations to Antarctica for the explorer and his pilot.

FROM CHILE
Davison said a sister ship of Ellsworth's plane, "Polar Star," had been acquired to leave for Magellan Channel, to-morrow or Saturday and then sail for the Antarctic aboard the supply ship Wasp East to drop supplies at prearranged depots.

"These preparations are not based on any definite belief that Ellsworth and Hollick-Kenyon are in serious difficulties," Davison said.

AT LITTLE AMERICA
New Brunswick, N.J., Dec. 5.—Rear-Admiral Richard E. Byrd says Lincoln Ellsworth, missing Antarctic explorer, and his Winnie pilot, Herbert Hollick-Kenyon, are "probably at or near Little America."

Admiral Byrd gave his views on the disappearance of the pair in an interview preceding a lecture yesterday at Rutgers University on his own experiences in the Antarctic.

He said Ellsworth had six weeks' food supply and a tent and "he can dig into the houses. He can locate the settlement (at Little America) by the chimney stacks above the snow."

"There is no reason to think," he added, "that his engine failed. We know it was in good condition when his radio began to fail."

Japanese Army Leaders Tell Gen. Ho, War Minister, to Leave North at Once and Return to South

(Associated Press)

Peiping, Dec. 5.—Revival of agitation for north China autonomy and sudden renewal of Japanese army activity in this area threatened to-night to block Nanking's eleventh-hour effort to retain its hold on north China by a broad programme of reforms.

The Japanese army, it was learned in authoritative circles, warned Gen. Ho Ying-ching, war minister of the central government, to leave north China immediately.

Gen. Ho was told, it was reliably stated, that his continued presence in the north would complicate the situation. He had come north to supervise the installation of the new Nanking-approved administrative machinery.

Several hundred persons demonstrated before Gen. Ho's headquarters and presented petitions demanding autonomy for north China.

FAMPHLET BOMBARDMENT
Five Japanese military planes flew over Peiping and bombarded the city with pamphlets urging on the population the need for autonomy.

The leaflets related the successes of the autonomous regime set up in eastern Hopei by Yin Ju-keng, former commissioner for the demilitarized zone.

The sudden departure from Peiping of Gen. Chen Yuan, overlord of Hopei and Chahar provinces, was viewed in some quarters as tantamount to resignation from his government post.

Before leaving he issued a statement virtually washing his hands of the negotiations and indicating he no longer accepts responsibility for order in Peiping.

Tsinan, China, Dec. 5 (Associated Press).—Gen. Han Fu-chu, governor of Shantung, is employing an iron hand in suppressing the self-government movement in eastern Shantung, it was disclosed to-day.

Troops sent to put down the movement allegedly instigated by agitators for a state similar to Manchukuo, have killed 200 persons and captured the ringleaders, it was said.

Thousands Flock To Winter Fair

(Continued from Page 1)

The decorative plan of the fair is modernistic and massive. The color scheme is a rose-buff tone, silver and black.

PROVINCIAL EXHIBIT
The focal point of the layout of the booths, which are arranged in four broad streets, is a circular stand surrounded by a silver dome and decorated with totem poles. It is occupied by the government of British Columbia. The display is divided into four sections: farming, with exhibits of the produce of the province, including berries, bottled fruit and the like; forests, with samples of the wood of the province and of rayon and other cellulose products made from wood; fisheries, with mounted salmon and trout, and mining, with a wide range of the minerals which are extracted from the soil of British Columbia.

OTHER DISPLAYS
Other booths which form part of the unified decorative plan, each surrounded by a luminous sign, represent:

Robert Fort, with selected portraits and photographs of art, music and Hollywood, with cosmetics.

Cameron Lumber Company, with a display of various forms of woodwork, including shingling and cabinet making.

The Quarter Cab Company, with all sorts of a panel showing the various materials which go into the making of a shoe, and a tiny stage on which models display various patterns.

W. and J. Wilson, with a variety of men's, women's and children's clothing.

Safeway Stores, with canned and packed foodstuffs of all sorts.

Lady Smith Board of Trade, with specimens of local fruit and other produce.

Two handicraft stalls, showing locally-made chairs and other furniture, pottery, hand-woven cloth, lamps and the like.

Lemon and Gossason, with a complete display of running workshop equipment, including all types of machine tools.

Minty and Temple, with stores, heaters and oil burners.

Palm Dalries, with ice cream of all sorts.

Hawthorn's, with their prize-winning English crumpets.

Beatty Washers, with washing machines and ironers.

J. I. M'FARLAND REVIEWS WORK

(Continued from Page 1)

1930, when panic and fear were in possession of the world's wheat markets; when the price of number one wheat was rapidly declining toward fifty cents or lower, delivered at Fort William.

I reluctantly, and in great trepidation, consented to assume a responsibility, which I described through the public press at that time, as a national service in time of a great national emergency.

I further stated my services were given in the interests of all farmers, irrespective of whether they were pool or non-pool. I am confident my statement has been fulfilled in every respect, and every farmer who produced wheat, as well as every citizen, has benefited.

The direct cause of that national emergency was a world-wide over-production of wheat.

He spoke of short crops in the Americas and Australia having now removed the unwanted excess supply, although it may be only a temporary correction.

MANY CRITICISMS
"The vicious attacks by critics from time to time demanding 'the sales,' dumping policies and others have added to our difficulties."

"Despite such critics, our farmers have received an average of almost 90 cents per bushel for No. 1 wheat delivered at Fort William, for every bushel produced in the last three years."

"Throughout these difficult years I have never neglected my obligations, nor have I evaded in any manner the great responsibility which was imposed on me. I have served in the national interest regardless of political favor. After battling through these stormy years, I feel quite certain the people of this country are well aware that I am not at this time voluntarily deserting the ship, when we are so near the conclusion of a successful voyage."

"I want to thank my many friends who have been interested in my work and who have evidenced appreciation of my efforts."

(Signed) "JOHN S. M'FARLAND."

ITALY STUDIES PROPOSALS

(Continued from Page 1)

These suggestions were said to be based principally on an exchange of territories between Italy and Ethiopia, the latter to receive its long-sought seaport and to remain absolutely independent, save for the lands granted to Italy.

EXAMINED BY ITALY
Rome, Dec. 5 (Canadian Press from Havas).—Italian papers agreed to-day there is no harm in examining Anglo-French peace proposals if no demand is made that the military operations in East Africa be stopped first.

They also declared sanctions are a two-edged weapon, harming the countries which apply them as well as Italy.

OIL MEASURES
Rome, Dec. 5 (Associated Press).—Assurances by Fascist sources that an oil embargo would mean "flight" reflected to-day the gravity of the fuel shortage threat under an extension of sanctions against Italy.

The Fascist regime sought by reduction of its gasoline consumption and development of substitutes and new sources for oil to forestall any motor fuel shortage arising from any further penalties imposed after the December 12 League of Nations meeting on an oil embargo.

Taxes boosting gasoline prices to \$1.08 a gallon and obligatory mixtures of gasoline and alcohol for bus lines and industrial use have reduced consumption of oil products to a great extent.

Canadian Press from Havas
London, Dec. 5.—If League of Nations economic sanctions prove insufficient to halt Italy in Ethiopia, then Great Britain should cut off communications between Italy and East Africa, said a resolution of the League of Nations to-day.

The resolution calls on the government to do everything possible to make its influence for peace felt.

HAILE SELASSIE FIRM
Addis Ababa, Dec. 5 (Associated Press).—Emperor Haile Selassie, although Europe is buzzing with reports of possible new peace moves, sent word yesterday that Ethiopia will never surrender "a single foot of land" under any plan.

The emperor, who is at Dessay, telephoned Foreign Minister Heriou here: "We will never give up any part of Ethiopia."

CAMP MEALS
At yesterday afternoon's session of the inquiry, Matt Shaw, one of the On-to-Ottawa trek leaders, described meals that he said relief workers thought were not "fit for human consumption" and which, in part, he said, led them to go on strike in British Columbia mountain relief projects.

Not since 1901 has there been a comparable trial of a peer before the House of Lords. In that year Earl de Russell was tried on a charge of bigamy in marriage to Mollie Cook in Nevada.

The Committee of Eighteen has been called to meet at Geneva on December 12.

"At that meeting," said the Foreign Secretary, "we will be prepared to take our share in whatever collective action is determined."

Sir Samuel denied British oil companies were exploiting the situation. These had been a great increase in oil exports to Italy, but this increase, he asserted, did not come from companies in which Great Britain was interested.

The quantity of oil shipped by the Anglo-Persian Oil Company to Italy, he continued, and in fact during the first eleven months of this year, had been considerably less than the amount exported to Italy during the corresponding period of 1934. He pointed to this reduction as being particularly marked during the three months from August to October.

Postponement of the Committee of Eighteen's meeting until December 12 did not mean any weakening in the attitude of member states declared the Foreign Secretary. It was, however, given a further opportunity for intensive effort to bring about a peaceful settlement of the East African conflict.

"It may be we are engaged on a hopeless task," said Sir Samuel. "It may be it is impossible to reconcile the divergent aims of the League of Nations, Italy and Abyssinia. It may be the atmosphere is so heated it is impossible for the voice of reason to prevail."

"None the less," he declared, "the French and we intend not only to go on trying, but to redouble our efforts during the short period of time still open before the Geneva meeting."

FRANCE CO-OPERATES
Again emphasizing the co-operation of France, Sir Samuel said: "The world urgently needs peace. We and the French, acting on behalf of the League and in the spirit of the League, are determined to make another great effort for peace."

In a hushed House of Commons, the Foreign Secretary made another appeal to Premier Mussolini.

"We have no wish to humiliate Italy nor to weaken Italy," he declared. "Indeed, we are most anxious to see a strong Italy in this world—an Italy that is strong morally, politically, socially, and that is able to contribute to the world its invaluable assistance."

"I appeal once again to Signor Mussolini and his fellow countrymen to discontinue entirely from their minds the suspicion that we have sinister motives behind our support

common sense took the place of ill-will and hysteria.

BRITAIN'S SUPPORT
"I believe," he declared, "that Britain can give invaluable support to those—and they are very many—who are striving for a world in which the problems of the future can be considered on their merits in the calm, dispassionate atmosphere that they require. Whether they succeed or fail, we intend to make every effort to give this help."

"The peace of this country, of the empire and of the world being the basis of our policy, we shall not hesitate," Sir Samuel promised, "to make our voice heard and our influence felt against war and international strife."

"There are many dangers ahead," concluded the Foreign Secretary. "We do not shut our eyes to them. But if we show ourselves strong in purpose and in resource, strong in defence of ourselves and of the cause of peace, we shall surmount them as we have surmounted many greater dangers in our past history."

Sir Samuel had previously referred to the situation in the Far East as very obscure. He believed, however, that proceeding between the Japanese and Chinese governments would result in an amicable settlement of any difficulties that might exist.

"It is the desire of the government," he continued, "as we have assured both countries, that there should be friendly relations between the two countries."

"I can only regard it as unfortunate that events should have taken place which, whatever the actual truth of the matter may be, lend color to the belief that Japanese influence is being exerted to shape Chinese internal political developments and administrative arrangements."

"Anything which tends to create this belief," he said, "can only do harm to the prestige of Japan and hamper the development, which

"Now, listen," she said, "let's not talk business here. We're supposed to be here for recreation to-night. Besides..." Her voice trailed off uncertainly.

"Okay," said Lewis, good-naturedly. "Tell me what you're ready to leave, let's all buzz out to our place for a couple minutes. Then you girls can fix up a little midnight lunch, and while you do, Mr. Wallace and I can talk business. How about it?"

It was agreed, and the subject was dropped. There was more dancing, much gay conversation and joking and at last Eve yawned elaborately and announced that it was getting late. It was 10 o'clock. They left the night club and walked half a block to where a large, expensive sedan was parked by the curb. Lewis unlocked it and stepped in behind the wheel; and Jean wondered, vaguely, why he should be wanting a new car when he already owned such a fine one.

Fifteen minutes later they drew up before an ornate apartment hotel on the western side of town.

He left the car at the curb, ushered them into the lobby and conducted them up to a sixth floor suite.

They entered a roomy, well-furnished living-room. Eve sank into an overstuffed chair and announced, "I'm too full to want any midnight lunch, and I bet all the rest of you are, too. Go ahead and talk business if you want to."

Bobby found himself seated on a couch beside Lewis. Lewis lit a cigar and said, "Well, it's like this. Your boss, Hopkins, has got a special job out there. I want it. It's a sedan, and he wants \$10,000 for it."

Bobby gaped at him.

"I didn't know we had any jobs out there that cost that much," he said.

"This is a special job," said Lewis. "Custom-built, and all. Anyhow, that's the car I want. Now listen."

He crossed the room suddenly, went to a desk unlocked a drawer and took out a long, bulky envelope. He brought this back and resumed his seat on the couch.

"In here," he said, holding the envelope meditatively. "I've got some bonds. They have a face value of \$14,500, and they're good as old wheat in the bin. But I've got to be careful what I do with 'em."

He looked at Bobby.

"I got these," he said, "from a friend of mine in Chicago, in settlement for a debt. As I say, they're worth a hundred cents on the dollar, anywhere. But here's the catch. This friend of mine is in politics, out in Chi, and he got the bonds from a bird who runs a string of dog-racing tracks and such around that neck of the woods."

"The deal was perfectly O.K., but since they're dog tracks, the county grand jury and they're investigating all of his deals. Now, the trouble is this: those bonds are registered, and if they once turn up anywhere they can be traced right back to him. And you see it would look bad for a politician's friend of mine if it should become known that he had got them from this bird who is in such a jam."

He tapped Bobby's knee with the envelope.

"You know how it is," he said. "Everything was all right—only it would look bad. It'd be poison, in fact, plain poison, as far as my friend is concerned. He just don't dare have those bonds come to light until this blows over. That's why he let 'em go to me at a discount, and that's why I've got to do the same thing, because I don't want to market them at a bank or broker's office in the regular way."

He paused again, and looked at Bobby fixedly.

"Now, then," he went on, "I want a car that costs ten grand. I got these bonds that are worth fourteen and a half—if a fellow can hold 'em a year or two. I'd be willing to let 'em go for the price of the car, if I could find a fellow that'd take 'em off my hands that way. See?"

"But listen," said Bobby, slightly confused. "I haven't got the capital to swing a deal like that. I can't buy your bonds and hold 'em a year."

"No, no, of course not," said Lewis smoothly. "But look; suppose you or the young lady here—she's gestured toward Jean—"suppose you happen to know somebody that can. You sell them to him. You can get more than ten grand for 'em. You could probably show 'em for twelve, without trouble. That way you make a nice cut for yourself. See what I mean?"

Bobby leaned back and wrinkled his brows. "You mean," he said slowly, "that it would amount to my buying them from you for ten, selling them for twelve, and pocketing the difference?"

"That's it. Only you wouldn't have to put up any cash yourself," Bobby meditated.

"The only trouble is that I don't believe I know anybody that could swing it," he said.

"I bet Daddy would do it," said Jean suddenly. They looked at her. Lewis laughed and shook his head.

"No, sister," he said. "Your dad's a banker. We could sell them to him, but what we want to do is place them with somebody that'd be willing to keep them in a safety deposit box for a year before he either sold them or clipped the coupons."

Jean sat with her hands clasped about her knees. Bobby was slowly shaking his head.

"It's just no use, I guess," he said. "Gee, I'm sorry. I could use that dough," he looked wistfully at Jean.

"Well, said Lewis, "Think it over. And there's this, too: I buy that car from your agency, and you're the

salesman on the deal, so you get your commission there as well."

"That'd be swell," said Bobby. "Think it over," said Lewis. "Listen—give me your phone number. I'll give you a buzz in a day or so—buh!"

Bobby agreed; and later—after Sandy had driven him home, dropping Jean at her apartment en route—he sat long in thought over this peculiar, but dazzling, proposition.

"If I could make two thousand dollars," he said suddenly, "I could ask Jean to marry me. She would marry me, then—she's practically said so. Oh, doggone it, who do I know that's got money, anyhow?"

He smoked two cigarettes while he thought guttily over this problem; then, at last, an inspiration struck him. He reached for his telephone and called up Jean. After a long wait her sleepy voice answered.

"Jean, honey—listen," he said. "You know what we were talking about to-night—about those bonds?"

"Yes," she said sleepily.

"I bet I know who'd buy them," he said. "Well, you introduce me to him, so I can try to sell them to him?"

"Who is it?"

"Your boss—Mr. Montague!"

Condemned Woman Fails in Her Appeal

Canadian Press

Toronto, Dec. 5.—The Ontario Court of Appeal late yesterday handed down written reasons for denying the appeal of Mrs. Elizabeth Tilford against her murder conviction in the arsenical slaying of her husband. The court's judgment said that Justice A. C. Kingston, the judge who presided at the Woodstock trial, had made a full and fair general review of the evidence in his charge to the jury.

Refusal of all defence contentions was written into the judgment, including the defence contention that the crown should have called Mrs. Tilford's daughter as a witness.

The appeal court's decision was given ten days ago, at which time Chief Justice Sir William Mulock said that in view of nearness of the execution date, December 17, the appeal denial was announced, with the reasons for judgment to come later.

Re-arrestment is reported to be one of the outstanding features of Germany's industrial situation.

Home in Ireland For Pope Suggested

Dublin, Dec. 5.—A sanctuary in Ireland for Pope Pius in view of the Italian sanctions situation was suggested by Eoin O'Mahoney, Cork city delegate, at the convention of the Fianna Fail Party, yesterday.

"I believe that as a result of sanctions Italy will be smashed," he said.

"Therefore it is our duty to offer the Pope a home in Ireland for the next two or three years, until Italy gets on its feet again."

Cumberland

Cumberland, Dec. 5.—Fire broke out in one of the upstairs rooms of the Waverley Hotel, Sunday night, and burned through the ceiling and roof before being noticed.

Two lines of hose were laid and proved sufficient to deal with the blaze.

One of the firemen, Olive Banks, was struck on the head by the hook of one of the ladders, causing a painful wound.

Your Baby and Mine

By MYRTLE MEYER ELDER

THE BRIGHT CHILD IS THE ONE WHO IS CURIOUS.

Mothers should give thanks for the daily evidences of a child's normal curiosity about everything and anything. The intelligent parent recognizes curiosity as an evidence of an alert mind. It is the child's desire to learn, and constantly to enlarge his fields of knowledge, which lead him to want to touch and hold and taste and experiment with everything which comes within his vision and reach. If the mother looks upon the child's curiosity as an annoyance which "drives her crazy," it is almost certain she will deal with it improperly. Her natural reaction will be to curb it—to say menacingly, "Don't touch that, ah, ah—hands off or Mama'll slap!"

MARRIED AT ESQUIMALT

Miss Valentine Ireland Becomes Bride of Mr. Thos. A. Hetherington

Many interested friends gathered last evening at St. Paul's Garrison Church, Esquimalt, when the marriage ceremony was performed between Miss Valentine Ireland, daughter of Mr. S. W. Ireland and the late Mrs. Ireland of Plymouth, B.C., and Mr. Thomas Alexander Hetherington, elder son of Mr. and Mrs. E. Hetherington of Calgary.

The church had been prettily decorated for the occasion by young friends of the bride, and a further picturesque feature was provided by a guard of honor of Girl Guides of the Tillamook Company, of which Miss Ireland had been captain for about five years, the pair passing under an archway of stars held by the guides on leaving the church.

Entering the church with her uncle, Mr. R. T. Dunn, by whom she was given in marriage, the bride looked charming in a youthful gown of white georgette, with double flounced ankle-length skirt, long graceful sleeves and velvet sash. The veil of embroidered tulle was attached to a becoming Dutch cap of Honiton lace, with a stiff upstanding frill and orange blossom. A necklace of crystal beads was worn and a bouquet of opheelia roses and carnations completed the toilette.

The bridesmaid, Miss Helen Roode, wore an ankle-length frock of peach crepe, with velvet sash and large picture hat of Marina blue and bouquet of peach chrysanthemums.

The bridegroom was supported by Mr. Clem Mann. The marriage ceremony was performed by Canon H. W. G. Stocken.

After the ceremony an informal reception was held at the residence of the bride's uncle and aunt, Mr. and Mrs. R. T. Dunn, 646 Grenville Avenue, Mrs. Dunn receiving the guests wearing a full-length gown of smoky transparent velvet, with rhinestone clasp and matching hat. The young couple stood in a flower-decorated alcove to receive the congratulations of their friends.

A buffet supper was served, the table centred with a handsomely decorated three-tier wedding cake, flanked by crystal vases of pink carnations and green candles. The decorations were carried out by Mrs. George Springer.

Among the many gifts which were on view was an electric table lamp on a navy blue herringbone tailored suit, with matching accessories, and blouse of shell pink georgette. A topcoat of travel tweed, with large collar of wolf, completed the outfit.

Opportunities For Youth Outlined

At the weekly meeting of the Victoria City Temple Tuesday, Miss Ruth Hanson, the president, called the meeting to order, and "Onward Christian Soldiers" was sung. Following the business, W. C. Wayne, the guest speaker of the evening, was introduced to the society.

His subject was "Some Consideration of Youth." He pointed out the opportunities for work and how jobs can be obtained through persistence and through personality. He also dealt with the present system of relief, and above all he urged all young people to keep good character to be fit for citizens and a cog in the nation. He brought his interesting talk to a close with a few hints on marriage.

The meeting concluded by singing of a hymn, "Songs of Joy Echoing Sweet and Clear."

Next Tuesday's meeting is of an outside interest, and all young people are expected to be present at 8 o'clock.

QUINTUPLETS START FILM

Callander, Ont., Dec. 5.—Displaying no stage fright, camera shyness or even plain contrariness, the quintuplets did a successful day's work in their first appearance with Jean Herholt and Dorothy Peterson today in "The Country Doctor."

Director Henry King with his camera man and two adult stars were in the nursery with the Dionne babies for almost an hour, but the camera crank handle was turned for only seven and a half minutes.

Scenes shot were of Herholt and Miss Peterson in the roles of doctor and nurse watching the children at play and occasionally touching one of the babies carefully.

LOVES TO EAT THIS CEREAL, IT CHECKED HER CONSTIPATION

Kellogg's All-Brain Helped Miss Kesterke

We quote from her letter: "Three years ago, I became constipated. I tried many laxatives. But as soon as I got used to each kind, I began to get the same trouble."

"Last summer I was on my vacation. They served Kellogg's All-Brain. I just loved it. I eat Kellogg's All-Brain every morning, and ever since I have not had to take any more laxatives."—Miss Margaret Kesterke. Address on request.

"Due to insufficient 'bulk' in meals. Tests show Kellogg's All-Brain provides 'bulk' to aid elimination. All-Brain is also rich in vitamin B and iron."

The "bulk" in All-Brain is gentle. It relieves digestion better than the fiber in fruits and vegetables, so it is often more effective.

Isn't this food safer than risking patent medicines? Two tablespoons of All-Brain daily are usually sufficient. If seriously constipated, use with each meal. See your doctor, if you do not get relief.

Use as a cereal, or in cooking. Sold by all grocers. Made by Kellogg in London, Ontario.

New Conductor Scores Success

W. C. Fyfe Leads Arion Club in Excellent Programme

By G. J. D.

The Arion Club of male voices, with its forty-four years of tradition behind it, presented a new raiment yesterday evening in its first concert of the season given at the Empress Hotel ballroom, when W. C. Fyfe, chairman of the first United Church, made his first appearance as the club's new conductor.

On an occasion such as this, music criticism, or still less, comparative estimates, need not be intended. But Mr. Fyfe, in a discerningly well-built programme, which also deserves recognition, was exceedingly interesting in all he did, and under his short directorship it seemed that in the club's singing there was a keener stirring of the choral senses.

Mr. Fyfe is not a demonstrative welder of the baton, but he evidently gets what he wants. His choral outlook is sound, the designs of the music well delineated, his rhythms are unmistakable, and he gets from his singers quality which has become an increasing concern because people are more critical than ever before. So that with these principles observed the choral atmosphere of the evening was felt to be quite interesting, and the large audience undoubtedly enjoyed in full measure the several numbers.

OLD AND NEW NUMBERS
Of these the programme contained light numbers given in previous seasons and two numbers heard for the first time: Sir Hugh Robertson's expressive "All In An April Evening," one of the best achievements of the evening (unaccompanied), as was also in this group C. B. Rawley's "The Clover Blossoms Kiss Her Feet," that had fine treatment and expression.

The other number sung by the club for the first time was an arrangement for male voices by Mansfield (which, by the way, did not seem quite suitable for male voices) of Schubert's famous "Gertrude," but in spite of a dragging heaviness its repetition was demanded.

Of the older numbers, the opening, "The Sword of Ferrara," by Bullard (last sung forth season), while a bit harsh of tone had spirit and volume; Jacobson's "Keep a Goin'," with words splendidly articulated, also an unaccompanied number (last sung thirty-fifth season); Walt's "Ladies o' Mine," with a well accomplished pianissimo (last sung thirty-fifth season); the mysteriousness and self-restraint stinging of the members in Prothero's "Shadow March" (last sung thirty-eighth season), and the final, "The Monks and Pirates," by Massent (last sung thirtieth season) given with spirit, excellent accent, rhythm and tonal effect were all outstanding accomplishments.

Hammond's "Lochinvar" (last sung fortieth season), with K. W. Symons, baritone, and Seymour White, bass, in the solo parts, also found much favor, the last two stanzas being repeated in response to the insistent applause.

TENOR SOLOS
Thomas Kelway, the leading tenor of the club, gave two numbers with his usual excellent perception and again delighted his hearers in the exquisitely tender melody, "All Hail, Thou Dwellings" from Gounod's "Faust," and the Brahms lovely "Lullaby," deserving the hearty applause he received and the recall.
The "Wormlife Trio," who assisted—a family ensemble, consisting of Bebe, violin, Nunie, cello and Mrs. Clifford Wain, piano, is earning a place in the important sphere of the city's chamber music.
Much is not yet to be expected of the trio, and it is seen that in the

Camsusa Baby Wins City Championship

More Than 250 Compete For Best Infants' Awards at Show Held at Victoria Winter Fair

Nancy Louise Camsusa, six and one-half months' old, daughter of Mr. and Mrs. N. L. Camsusa, 945 Pembroke Street, is the champion baby of Victoria.

The championship was awarded at the Victoria Winter Fair and Bazaar Wednesday afternoon, before an admiring crowd, which filled the Armories.

More than 250 babies were entered in the competition. The judging was done by Dr. Richard Patton, Dr. Glenn Simpson, Mrs. H. M. Cassidy, Miss A. Creaser of the Victorian Order of Nurses, Mrs. A. D. Straith and Mrs. E. Prichard, a former Victorian Order nurse.

The winning baby received the championship engraved silver cup presented by the Hudson's Bay Company, a case of Nestle's Milk and a white fur coat presented by A. E. Alexander of Foster's Fur Store.

Mayor Leeming praised the work being done to build up a healthy, strong population here, pointing out that Victoria babies on the average weighed one pound more than those in other cities, and they have an average chest development three-quarters of an inch greater than the average of children in other cities.

THE MAJOR ALSO SAID the infant mortality rate in Victoria was lower than any Canadian and B.C. average, with the maternity death-rate particularly low. Victoria was now averaging eighteen babies born a week, or 936 a year. He praised the work of the Victorian Order of Nurses and the city health officials as being largely responsible for the health record of this city, and spoke of the value of the pre-natal and post-natal work they were doing. He pointed out that pre-natal work was considered so important that a pre-natal allowance of \$8 a month for six months was made to mothers on relief.

T. H. Kellock spoke of the high standards of baby quality set by the show.

Kathleen Wilson, Marianne Fraser, Jean Lennox, Janet Pitchford, Kitty Lake, Callie Goldsmith, Ellen Frank and Allison Craig, all members of the Junior Victorian Order of Nurses had charge of the mothers and babies in very natural musical welfare of her daughter the club's well-known accompanist has a tendency to dominate its performance. But time, no doubt will eradicate this, and open wider the portals of a well balanced ensemble.

The competition, seating them and seeing to their comfort.

The awards in the various classes were:

D. S. Taylor Says National Group Urges Wider Relief Trek Inquiry

J. S. Taylor, member-elect for Nanaimo federal district, has just returned from Winnipeg, where he attended the national council of the C.C.F., substituting as a member of the council for the Rev. Robert Connell, M.P.P.

The group was welcomed by Mayor Queen of Winnipeg and Mayor Harefoot of St. Boniface, and deliberations were held in one of the large rooms of the legislative buildings.

Decisions were made, said Mr. Taylor, on the following issues:

A national office of the C.C.F. to be opened at Ottawa under the control of E. J. Garland.

Instructions were sent to the provincial executives for detail to their several local branches urging that every possible assistance be given to the oppressed in the matter of resisting mortgage foreclosures, evictions and the general lowering of the standard of living.

And it was decided to urge Parliament to extend the scope of the present inquiry into the relief camp trekkers. This is limited at present to the province of Saskatchewan.

The C.C.F. said the member-elect desires the enlarged inquiry to reveal the cause of the trek and the authority for the issuance of orders which forbade residents of the province to feed the strikers, and which forbade the use of transportation over the roads even in cars licensed for the purpose, as well as to reveal the authorization of communications to and from Ottawa in connection with such orders and to discover who was responsible.

SCOUT NEWS

The Times is publishing its Boy Scout Notes each Thursday. Notices and other events of interest to the groups should be in the Times office not later than Wednesday morning.

The annual meeting of the Third Victoria (St. Barnabas) Scout and Cub group committee will be held in the district headquarters, 1294 Johnson Street, to-morrow evening at 8 o'clock. Parents cordially invited to attend.

The weekly meeting of the Oak Bay Sea Scouts took place in the headquarters Monday evening. After flag-break, the patrols were inspected. A mapping and sketching class was taken by A. S. M. Hector Alexander. J. Grant took a class for instruction in sailing and Cater for signalling. Practice in formations and whistle signals were held by the troop. The meeting was closed by W. Walker with flag-down.

Before the coming of Hitler and Nazism to Germany there were several German Scout associations, but none recognized by the Boy Scouts International Bureau as representative of the whole of Germany. Five organizations had come into a loose federation when the whole movement was banned by the Nazi government. At present the only youth movement permitted is the Hitler Jugend, the junior branch of the Nazi party.

Prior to the Fascist regime there were 40,000 Boy Scouts in Italy. As part of his plan to secure national unity, Mussolini demanded but one youth movement, the Balilla, the junior branch of the Fascist. Following discussions, the Pope acquiesced and reluctantly closed down the Italian Scout Association. Mussolini, however, is not antagonistic toward the Scout movement in other countries. Scout visitors to Italy have been received in friendly fashion and without any attempt at propaganda.

Shortly prior to the Russian revolution, Czar Nicholas had the textbook by Lord Baden-Powell, "Scouting for Boys," translated at his own expense into Russian, to encourage the growth of Scouting in that country. The Soviet government suppressed the movement ruthlessly. A few Scout troops tried to carry on in secret, but were gradually stamped out. The only Russian youth movement now permitted is the "Young Pioneers," membership in which is compulsory, and which is anti-religious, and teaches class warfare. There are a number of Russian Scout groups in other countries, composed of sons of Russian refugees.

TRADE TREATY ADDS MARKETS

U.S. Secretary of Agriculture Says More Manufactured Goods Will Be Sold

Chicago, Dec. 5.—United States Secretary of Agriculture Wallace yesterday defended the new trade treaty between Canada and the United States, under fire from some dairy and beef cattlemen, by saying its result would be to increase the market for manufactured goods.

"We have seen that any increase in payrolls brings an increased demand for beef and dairy products," Mr. Wallace, here to attend the International Livestock Exposition, told interviewers. He predicted the lower tariff on pork would "be significant" to corn belt farmers.

Asked if he had heard much criticism of the treaty, he said:

"No, except that I think folks want to know more about it."

Trades and Labor Council Approves Opposition to Daylight Saving

Introduction of daylight saving in Victoria next summer, an issue to be decided by plebiscite during the civic polling next Thursday, was opposed by the Trades and Labor Council

yesterday evening. The meeting endorsed in full a letter from the Anti-Daylight Saving League setting out various reasons for opposition.

There was no discussion on the subject, the meeting agreeing with the objections of the league as outlined in its letter.

Chief objection of the league was the isolated position Victoria would be in by adopting daylight saving without other Pacific Northwest cities following suit. Interference with mail deliveries, transportation schedules and inconvenience to tourists were also mentioned.

Gliders in the form of sea gulls are being flown in Soviet Russia.

OBSTACLES IN LEAGUE'S WAY

Prof. E. S. Farr Guest Sneaker at Revellers' Club Dinner Meeting

Influenced largely by the public opinion of the world and the Treaty of Versailles, the League of Nations activities are somewhat curbed, Professor E. S. Farr told members of the Revellers Club during a dinner address in the Calro Coffee Shop yesterday evening.

At the time of the Sino-Japan trouble he pointed out that the League had objected to Japanese invasion of Manchuria, and an investigating commission had blamed the invader. Public opinion, however, had been indifferent to the worries of China, he said.

German rearmament was carried out with public favor since many other nations were doing the same thing and the League had been unable to prevent it.

Owing to the change of public opinion in the present Italian-Ethiopian crisis, the League had gained power, he said. At first the world was sympathetic towards Italy because of her needs and there were unfair prejudices against Ethiopia. This opinion had changed in sympathy towards Haile Selassie, however.

The vindictiveness and revengefulness of the Treaty of Versailles had added the League with great burdens, the speaker continued.

He spoke of matters which had promoted war between Italy and Ethiopia, referring to the incident of Italian road-builders being stopped at the border when constructing a highway through Eritrea into Ethiopia for economic purposes.

STORIES IN STAMPS

By J. S. Klein

ORPHAN SPY OF MEXICO

Mexico was fighting its first revolution in 1810, to free itself from tyrannical Spanish rule, when a young orphan woman arose and helped much toward breaking her people's shackles. She was Leona Vicario, who, though left alone early in life, was wealthy and well educated.

Engaged to a famous rebel lawyer, she used to send him valuable information about the plans of the Spaniards against the revolutionists. Her letters were intercepted, and she was imprisoned. But she escaped, made her way to the rebel camp, married her lawyer lover, and continued to take part in the revolutionary movement.

For years she wandered about with her husband and the insurgents, suffering many hardships, but always striving for independence. When this came in 1821, Leona Vicario was immortalized as one of Mexico's foremost heroines.

Her portrait appears on the two-centavo value of the issue of 1910 commemorating the one hundredth anniversary of Mexican independence.

NORTHERN ELECTRIC boasts 90% LESS WIRING than is used in other makes!

Northern Electric Model 801, above, embodies all the advanced features of Northern Electric engineering. Domestic and world reception with a brilliance and easy perfection you never dreamed possible; PLUS amateur conversations, police calls and thrilling aircraft messages. Revised price, made possible by the new Canada-U.S. treaty. Cash \$157.50

This extreme simplification in the Northern Electric All Wave circuit is brought about by the centralization of all the sensitive elements of the set into one isolated and heavily-armored unit, called the "Centromatic Unit." The effect is amazing—it completely eliminates "set noise," leaving an unobstructed track for every radio signal, strong or weak, on any wave length... from any part of the world; programmes are reproduced with a subtlety and truthfulness hitherto impossible; accurate tuning is made child's play, even on short-wave bands... "Controlled Selectivity," another great improvement found in the Northern Electric Radios, makes it possible to SHARPEN or BROADEN your tuning to suit the station that is coming in. All the brilliance of metal tubes is brought out in Centromatic Radio performance.

Your old radio as down payment now, leaves nothing further to pay till January 15, 1936. Balance on easy monthly terms.

DIFFER ON BID AND PLAY

McKenney Shows Hand in Contract That Caused Argument Between Partners of Both Sides

By WM. E. MCKENNEY

It is hands like to-day's that cause heated bridge arguments. Can't you just imagine two partners starting in on each other, even before the hand is played—"Didn't you hear me bid and rebid diamonds?" and "Why didn't you take me to four diamonds with a hand like that?"

Well, the argument over the bidding was nothing compared to the arguments that developed over the play of this hand.

East made a natural opening of the queen of hearts which declarer won with the ace, the proper play. If he held up one round, West would be out of hearts and, when East's queen dropped, West took the trick with the ace.

Declarer now played the king of diamonds and, when East's queen dropped, West took the trick with the ace.

Now, if you will look the hand over carefully, you will see that, if West returned the three of hearts the contract could be made. North would win the trick with the king, play

Twenty-five Years
Ago To-day

DECEMBER 5, 1910

(From The Times Files)

The civic creosoting plant was shut down to-day. Before it is again placed in operation some important alterations and improvements will be made, under the direction of the city engineer.

The first prize of the Scottish Royal Horticultural Association has

been awarded to T. A. Brydon, Saanich, for a collection of desert apples. This is the first time the honor has gone outside the United Kingdom. The award is not only a high tribute to Mr. Brydon's ability as an orchardist, but to the fruit-growing possibilities of Vancouver Island.

By winning their match with the Vancouver High School on Saturday afternoon, the High School girls of this city have now the honor of being holders of the inter-collegiate hockey championship and the challenge cup.

The dance given in the A.O.U.W. hall on Saturday evening by the High School Athletic Association in honor of the visiting hockey team from Vancouver was a charming affair. About two hundred were present. The hall was handsomely decorated in yellow and black, the high school colors, with touches of blue and white in honor of the Vancouver visitors, and college pennants gave a characteristic touch.

After a rough trip from Prince Rupert, the O.T.P. steamer Prince Rupert arrived on Saturday night with seventy-eight first-class passengers, the majority of whom were for the round.

"ALFALFA BILL" WARNS THE U.S.

Broken Bow, Okla., Dec. 5.—Former Governor "Alfalfa Bill" Murray predicts a United States embargo on sale of oil to Italy "will surely get us into a European war, if it breaks out."

"Embargoes are never justified except when border states are at war," Mr. Murray declared in a statement yesterday. "Then it should be confined to guns and powder and shot, and should not extend to cotton, oil, medicines, food or clothing. To do so is a discrimination."

Spencer's Riders Set Furious Pace In New York Bike Race

THE SPORTS MIRROR

SPORTS followers must have their thrills, and most of them are not content with those offered by the game as constituted. They demand innovations. The addicts, as a whole are rather hard to satisfy, inasmuch as they are paying guests. After all, they attend for the purpose of being amused.

The customer attends a rugby game, which is replete with open field running and laterals, and he is dissatisfied because the rugger does not run straight to touchdowns. In basketball, which is based on speed, skill and deceptive passing, the patron wants the athletes to run over one another as they do in a rugby football match. The inside was taken out of baseball in compliance with the demand of the trade during the Babe Ruth era. Synthetic Bamblinos were created by hopping up the ball. The sacrifice, squeeze, hit and run, etc., practically were relegated to the scrap heap. Base stealing became a lost art.

The fans patronize the wrestling matches, not to view the tussle with which Frank Gotch tortured opponents, the hammerlock is a Fred Bessie Joe Schach's body sensors or Strangler Lewis's headlock, but to see the strange acrobatics and curious enrolling of members of the new school. The show is the thing and the grapplers are smart enough to fill the prescription.

United States college football turnstiles, registering a steady upturn since the depression "low" of 1932, elicited substantial increases in attendance for the 1935 season. The gains ranged as high as 40 per cent in some noteworthy instances, but the increase for the country as a whole probably did not exceed 10 per cent.

According to figures obtained in a nation-wide poll, twenty-nine out of forty-seven major colleges enjoyed increased attendance. The remaining eighteen either reported decreases or that they were "about even" with 1934. A policy of secrecy concerning attendance was revealed at several institutions including Columbia.

The south coast's biggest football crowd of all time when 48,880 saw Duke upset North Carolina at Durham. A record Rocky Mountain crowd of 25,660 saw Colorado beat Denver. Notre Dame proved the country's biggest drawing card by a big margin. The Irish helped attract 485,018 fans in nine games. For the first time on record Navy outdrew Army. The midshipmen played before 389,000 in nine games while the endites attracted 384,000 in the same number of engagements.

Abe Eliowitz won a well-deserved honor when he was given the Jeff Russell Memorial trophy. Here is a player who fills all the requirements. Throughout his Canadian career he has never been guilty of one infraction of the code. He plays hard, takes a lot of pounding in every game, has always been a keen player who has given everything in his extensive repertoire.

Players of lesser ability have often gone out of their way to test Eliowitz at home and abroad in the fashion football fans know well. He never retaliated even though it is common knowledge that if he wished to do so he could hold his own with even the most burly linemen in the union. This award is one worthy of approval. Eliowitz is the best all-round player in the union, and the most outstanding player to come to notice since Coachman hung up his Canadian cleats twelve years ago.

Bisley bullfights will be smaller for 1936. At the imperial meeting of the National Rifle Association in July this year competitors more than doubled the number of highest possible scores which had been made in 1934. In that year the number was already too large and now marksmen have been given a harder nut to crack. The bullseye at 200 yards has been reduced from six to five inches, at 300 yards from nine to 7 1/2 inches, and at 500 to 600 yards from 18 to 15 inches.

Small as these reductions are they will cut down considerably the number of "possibles" brought about by the introduction of the famous pattern 14 rifle. On the 300-yards target, used in the Prince of Wales competition and the second stage of the King's Prize, the inner and magline rings have been reduced also, but the aiming mark, "the tin-hat," has been enlarged. The N.R.A. has reduced

Peden and Hill In Second Spot Behind Germans

Kilian and Vopel Leading Pack By Lap Margin After Eighty-two Hours

Letourner Loses Famous Partner

New York, Dec. 5.—Riders from the stable of Willie Spencer are making matters plenty stiff for the remainder of the field in New York's annual six-day bicycle race on the giant pine saucer in Madison Square Garden. Today the Canadian promoter's two ace teams, Gustav Kilian and Heinz Vopel and Torchy Peden and Norman Hill, were riding one-two.

The German duo paced the other ten teams by a one-lap margin after eighty-two hours of continuous riding. Peden and Hill, who hail from the Pacific Coast, the former from Victoria, B.C., and Hill from California, are in second position, only a single lap behind the Europeans, and leading in sprint points by 257.

Two other teams, Walter and Crossley, and Rodman and Yates were tied with Peden and Hill in laps, but had fewer points.

DEBATES IS OUT

The last twenty-four hours' riding saw the breaking up of one of the favored teams when Alfred Letourner lost his partner, Gerard Debets, and had to team up with Hurler. The Letourner-Debets combination was the finest team from the group of riders under the banner of John Chapman, the Garden's bike racing boss, and had figured to give Spencer's ace a great battle for the honors.

The current race marks the first appearance of Spencer's top riders at the Garden for some time and begins to look like they will come through to victory. The rivalry between the riders from the two circuits is keen to say the least and plenty of action is looked for before the finish on Saturday night.

Standings follow:

	Miles	Laps	Pts.
Kilian-Vopel	1412	9	182
Peden-Hill	1412	8	207
Walthour-Crossley	1412	8	224

GAGNE THINKS DEAL TRICKY

Seattle Hockey Manager Says Underhand Methods in Hemmerling Trade

Seattle, Dec. 5.—Manager Art Gagne of the Seattle Hockey Club, accused New York Americans of the National League yesterday of a "tricky deal" in obtaining Tony Hemmerling, "bad boy" of the Sea Hawks, Gagne, asserting Hemmerling is on his way east, declared he will fight for possession of the forward.

Hemmerling was traded to Calgary for Jimmy Evans last week because Tony looked so badly the fans booed him on to the bench. Evans refused to report and Gagne obtained approval from President Gordon Letchy of the Northwest League to suspend Hemmerling.

Meanwhile, Calgary sold the player to New York.

A workout of the Saanich Thistles football team will be held to-night at 7 o'clock behind the Scott Building, Hillside Avenue. All players are asked to attend.

Also the long range bullseye, used at 900, 1,000 and 1,110 yards, from 36 to 30 inches. This is the first change that has been made in the long range bull since 1874.

Rocky Brooks Meets Stone

Saturday evening's wrestling show at the Tillicum gym will feature a double main event, both bouts to go over the six ten-minute round route. One half of the twin bill has been arranged with Rocky Brooks, former Victoria heavyweight, engaging Glen Stone, Olympia. The latter appeared here two weeks ago and defeated Mike Strellich. Last Saturday Brooks was beaten by Bob Kruse in the local ring. The first bout on the programme will start at 8.45 o'clock.

FORMER HALIFAX STARS INVITED

Halifax, Dec. 5.—Three members of the former Halifax Wolverines, 1935 Allan Cup winners, were invited today by President E. A. Gilroy of the Canadian Amateur Hockey Association, to accompany Port Arthur Bearcats as Canadian hockey representatives to the Olympic games in Germany this winter.

Whether or not Captain Brian Mosher, Chumme Lawlor and Vince Ferguson would accept the hockey chief's invitation, which asked them to report at Port Arthur not later than December 19, was a matter of conjecture.

COPERNICUS
the great astronomer
TOOK 23 YEARS TO WRITE ONE BOOK, AND 12 YEARS MORE TO HAVE IT PUBLISHED—
THEN DIED A FEW HOURS AFTER THE FIRST COPY WAS BROUGHT TO HIM—
—1543—

THE UNITED STATES ONLY INLAND LIFE-SAVING STATION IS LOCATED NEAR LOUISVILLE, KY., ON THE OHIO RIVER... ALL OTHERS ARE ON THE SEACOAST OR THE GREAT LAKES.

Copernicus, famous astronomer, took twenty-three years to write his book on astronomy—waited another twelve years before having it published, and then died just as the first copy was delivered to him as he lay on his deathbed.

He began the book in 1506, completed it twenty-three years later, but delayed having it published. An account of the book was circulated to some extent, and the new astronomical theories of Copernicus set out in the book became more or less widely known. Pope Clement VII heard of the theories, approved them, and through Cardinal Schenberg, formally demanded that the book be published in 1543.

Copernicus, whose astronomical work changed man's entire outlook on the universe, was accomplished in many other lines. He studied mathematics and became skilled in painting. He took his degree of Doctor of Canon Law at Ferrara, founded time to practice medicine and devise a system of currency reform which was laid before the Diet of Graudenz in 1522.

WEST SAANICH SWAMP RIVALS

Mercantiles Defeat Lake Hill 64 to 30; Ralph Mitchell Gets 33 Points

Featured by the fine scoring of Ralph Mitchell, brilliant forward, who scored thirty-three points to surpass the opposing team's total, West Saanich Mercantiles, league leading senior B quintette, snored under the Lake Hill aggregation 64 to 30, in the Victoria and District Basketball League at the High School gym yesterday evening.

The first ten minutes of play saw both teams fighting it out fairly even, matching basket for basket. However, with the score standing 10 to 10 West Saanich surged ahead, securing a substantial lead which held to the end. The halftime score stood 31 to 19 in favor of West Saanich. The second half saw West Saanich have it all over their opponents. Mitchell turned in a fine performance during this half, and secured most of his thirty-three points. Ken Young, tip-off ace for West Saanich, and who is on the way to become one of the centres in the city and district, played 46 minutes for the winners and was runner-up to Mitchell with fifteen points.

TRADE ATS WIN

Battling through a close fixture, Trade Ais, runner-up to Red Stacks, leaders of the intermediate A race, managed to nose out Lyn Patrick's Aces 26 to 25, in the second game on the evening's programme. The teams fought to a close halftime score, which stood 15 to 11 for Trade Ais. Plenty of action was witnessed in the last capto. Trade Ais had the best part of play during the first ten minutes and secured a fairly good lead, but the Aces fought hard for the remainder of the game and just failed to catch their opponents.

The opening fixture saw the Doo-Dads defeat the Canadian Scottish 26 to 20 in a men's senior C affair.

Joey Leads All Canadian Horses

Toronto, Dec. 5.—Joey, star performer from the stable of C. L. Jacques, Calgary, was the leading money-winner during the Canadian racing season. The four-year-old western speedball with nine victories earned \$9,480 to hold top honors.

Second place went to Senator Donat Raymond's Crozier with \$6,945.

Joey caused a sensation in the west this year when he ran up eight consecutive victories.

It was more or less a defensive type of game. The score at the interval stood 17 to 10 for Doo-dads. Doo-dads are next to Hudson's Bay, tottothers in the league race, while the Scottish are holding down the bottom position.

Alan Le Marquand and Bill Clarke refereed the games.

Teams and scores follow:
Doo-Dads—Robertson 2, Williams 11, A. Rawlings 1, V. Rawlings 4, and Wright 2; total 26.
Canadian Scottish—D. Dorewell 2, T. Dorewell, Thompson 2, Morgan 4, Richards, Day, Knight 1, and Sugden 11; total 20.

Trade Ais—B. Newman, Price 5, D. Gent 7, K. Gent 8, Featherstone, Reid 2, and Smart 2; total 26.
Aces—C. Patterson 6, Florence 6, Rowe, S. Patterson 2, McKeechie, Surphile 4, B. Foster and C. Foster 7; total 25.

West Saanich Mercantile—C. Sluggert, R. Mitchell 35, K. Young 15, Sluggert 10, L. Butler 8, Sluggert and C. Butler; total 64.
Lake Hill—Michael 3, Cunningham 2, M. Atkinson 8, P. Atkinson 2, Gray 3, Morgan 4, Wellings 8, Bates McKenzie and Bentley; total 30.

H. H. Livsey Wins Par Competition

In the men's monthly par competition at the Colwood Golf Club yesterday, H. H. Livsey was the winner with a score of 2 up. Dr. G. J. Coulta, D. C. Gordon and H. H. Book tied for second place with scores of 8 down.

AMERICANS TO MEET MAROONS

N.H.L. Clubs Clash at Montreal To-night; Boston Bruins Invade Detroit

It will be campaign night for the underdogs as four National Hockey League teams swing into action to-night. In both games, the cellar occupants of the two divisions in the big-time loop will be striving to pull up even with the team immediately above them for the prized "playoff" notch.

A little early in the season to figure which six of the eight clubs in the circuit will get a chance to play for the Stanley Cup, both the New York Americans and Boston Bruins figure they had better start winning a few hockey games if they want to stay within gunning distance of the charmed circle.

So to-night, "Red" Dutton leads his not-so-amazing Amerks into Montreal fresh from a win over Boston and confident they can put a halt to the three-game winning streak of Montreal Maroons.

The Americans need the win to gain a tie with Canadiens for third place in the division.

The lowly Bruins invade Detroit to toppling the Red Wings and squaring up with the birds for third place notch in the United States section.

Marigold Soccer Eleven Organized

A meeting to organize the Marigold Football Club was held in Marigold Hall this week. The following were elected officers: President, C. Barley; vice-president, C. Brown; secretary, treasurer, Archie Oeman and manager, W. J. Lynn.

All friends in the district are invited to join in and make the club a success.

Hamilton Tigers Slight Favorites

Wentworth Plays With Broken Toe

Montreal, Dec. 5.—It takes more than a broken toe to keep Cy Wentworth out of a hockey game. Cy, hard-hitting defenceman of the Montreal Maroons of the National Hockey League, hobbled slightly at a luncheon here and when questioned revealed he has been playing with a broken toe since the first game of the season.

Wentworth was cracked over the foot in the game against Boston Bruins here that sent the Stanley Cup holders off in search of new laurels but he didn't tell anyone. "It's nothing," he admitted modestly.

"Just hurts now and then."

HIGH RUGBY TEAM BEATEN

Victoria School Fifteen Drops 12 to 8 Decision to Garrison Squad

The Garrison second team defeated the Victoria High seniors 12 to 8 in a thrilling rugby game at the Victoria High School grounds yesterday.

The High team had the edge in the first half, but the heavier Garrison team stood the grind better in the second half and scored nine points to the High's nil.

The score at half time was 8 to 3 in favor of the High School.

Bill Brown scored the first try for High when he received the ball after a smart three-quarter run. Cosier's kick from a difficult angle went high over the bar for the extra points. Jim McGarry scored the High's other points.

The first scores for the Garrison came when K. Burton made a fine run and downed the ball over the line for three points. The kick failed.

Soon after the whistle for the second half "Pincher" Martin dropped the ball over the bar when he was awarded a free kick for the Garrison.

H. Hipwood crossed the line for the Garrison's second try half way through the second half.

The last try for the Garrison was scored by W. Patterson in the final minutes of the game. The kick for extra points was at top level for the Garrison.

The teams followed:
Garrison—Rowton, Watson, Hipwood, Montgomery, Hicks, Bradshaw, Anderton, Croft, Martin, Shone, Clark, Buxton, Green and Patterson.

High School—Cosier, Andrews, McMurich, Williams, Noel, Smith, Brown, Bray, Dalsell, Russell, Miller, Lucas, McGarry, Elliott and Doherty.

TABLE TENNIS

The Glenaholm Hotel, league leaders for the last two years, had a tough time nosing out the Melrose Paint Company, 9 to 7, in a first division table tennis match, this week.

Lionel Cox was at top level for the hotel squad, and scored an impressive victory over Whittingham.

Chattel, heartened by his victory in the recent consolation series, was best for the paint men, scoring three times, with a surprise win over Eric Cox.

The players and games won follow:
Glenaholm Hotel—L. Cox 4, E. Cox 2, Gray 2, McIntosh 1.
Melrose—Whittingham 3, Chattel 3, McGregor 1, Eden 0.

Redwings aggregation of ping-pong stars were too good for the Victoria Daily Times team and trounced the newspapermen 12 to 4.

It was three men who won the match for the high-stepping club team. Browne-Cave, Tulley and Bowden all scored shutouts.

Rigby played well for the Times, running some of the highly ranked players very close and only losing to Tulley 22 to 24.

Rule 5 to 3 Choice to Defeat Winnipeg in Canadian Rugby Football Final at Hamilton Saturday; Bob Fritz Will Be in Western Line-up

Canadian Press
Toronto, Dec. 5.—Charges of partiality against the Canadian Rugby Union disappeared in today's key air as Winnipeg, led by big Bob Fritz, prepared to charge into the shadows of the mountain and tackle the Tigers in Hamilton Saturday. The west's football champions will make the invasion without a grievance.

"We will beat the Tigers, the referees and the head linesman, if necessary, to win the Canadian championship," yelled skinny Joe Ryan, manager of Winnipeg, in an outburst a few days ago against the possibility that the intersectional elastic would be directed by eastern officials.

But Ryan, whose heart is wrapped up in the gridiron challenges he personally picked, needn't worry about anything except those terrible Tigers. President John Degruy of the C.R.U. announced yesterday that the refereeing would be shared by Eddie Grant, Winnipeg, and Hec O'Riordan, Toronto.

To-morrow, the west's champions will leave their Detroit training camp and pile into Hamilton for a look at the old H.A.A.A. grounds where they will battle the Tigers.

Fritz, whose wrist was injured in the exhibition game against Assumption College Monday, will be at quarterback. The injury feared to be a fracture, was diagnosed yesterday as a sprain and the former Concordia College husky will be fit to start the game.

Despite the fact they have been hailed on all sides as the best western team to challenge for national football honors that never have been taken from the east, Winnipeg are expected to be on the short end of the betting by game-time. The odds favoring the Tigers may be about 5 to 3.

It develops Hamilton expects to see a fine prairie wingline, a barrier capable of at least holding its own with the charging Bengals. Coach Fred Weale saw the Assumption-Winnipeg game and told his campaigners they wouldn't knock many holes in the opposition wall.

A consensus of Sarnia Imperial opinion, taken yesterday, revealed much the same view. The Imperials, who were knocked over by the Manitobans in September, suggested the Tigers would have their troubles in the front trenches. They were almost unanimous, however, that Tigers would win.

Detroit, Dec. 5.—Huck Welch, mighty Hamilton Tigers kicker, may have an edge on Joe Perlich in booting when the juggernaut face the Winnipeg in Hamilton Saturday, but first he will have to get those lofty hoists away.

Officials of the western champions figure Welch may have much trouble with the charging Winnipeg line, forcing him to kick in a hurry—if he doesn't the kicks will be blocked, they say.

"From observations made by Bert Oja and Peter Simmers, our linemen should experience little difficulty in blocking his kicks," said Joe Ryan, manager of the challengers. Oja, line coach and Summers, bench manager, scouted the Sarnia-Hamilton game at Toronto last Saturday.

In the pre-season game at Winnipeg the westerners broke through that formidable front-line of Sarnia Imperials to block four of Sumner Strlings' punts.

DOMINOES TO MEET LOCALS

Victoria Dominos, Canadian hoop champions, will meet the Island Tug Red Stacks and West Saanich Mercantiles, leading intermediate A and senior B squads respectively, in an exhibition game at the High School gym to-morrow evening.

The Dominos will play four fifteen-minute quarters against what are generally conceded as the two strongest squads in the local league, and it is expected that they will give the challenge quite a battle.

Manager, Dave Nichol, of the Dominos is anxious to get the lads in tiptop form for their scheduled battle with the Seattle De Molay next week. If Ralph Mitchell, brilliant centre for West Saanich, and Roy Taylor of the Red Stacks continue to rattle in the points as they have been doing so far this season, the Canadian champions will be in for a tough evening.

The second encounter will bring together Kipling-Gillespie and Chinese Students, intermediate A quintettes. The Chinese Students, as yet undefeated in league play, are deadlocked in first place with the Red Stacks, while the coal squad is fighting to stay in the running for a play-off berth.

Panorium Dye Works, undefeated leaders of the women's league, will engage Burnetts in the opener at 7:30 o'clock.

A plan for a central library for the use of Saanich schools was submitted by letter to the municipal school board by G. H. Harman, president of the Saanich Teachers' Association, yesterday evening. Mr. Harman planned a strategically located centre in charge of a teacher from which teachers could draw books monthly. The suggestion was referred to the incoming board after trustees had noted a similar plan institute some time ago had failed.

Best Fire Season For Many Years

Loss in Forest Blazes Drops from \$993,484 to \$289,619; Government Cost of Fire Fighting Drops to Low Figure; Wet Cycle Indicated

British Columbia went through the 1935 forest fire season with one of the lowest losses on record and the cost to the government of fighting fires was reduced to comparatively negligible figure, according to a report released today by Hon. A. Wells Gray, Minister of Lands.

The total damage done is placed at \$289,619, which compares with \$993,484 in 1934 and as high as \$1,803,000 in 1931.

The cost of the government fire services was kept down to \$24,453, which compares with a ten-year average of \$212,050.

"The season was one of the most favorable for forest fire protection standpoint experienced in many years," stated P. Z. Caverhill, chief forester, in reporting to the minister. As compared with an area of 638,000 burned over in 1934, the area this year was only 48,870 acres.

The loss of timber killed was held to 21,118,000 board feet, against 317,125,000 the previous year. The next stumpage loss was set at \$8,636, in the 1,111 fires that occurred.

Forestry officials believe that this reduction in losses is due to the province going through a cycle of wet years. Records they are keeping convey this impression.

The areas burned over are divided as follows: Mercantile timber, 1,778 acres; valuable reproduction, 11,108; cut-over old burns, 22,548; stock range, 1,293, and slash, 12,333. The losses are divided as follows: Net stumpage loss, \$8,636; estimated value of reproduction areas, 55,664; cut-over old burns, \$4,053; forest products cut, logs and lumber, \$72,086; buildings, \$15,230; railway, logging and sawmill equipment, \$129,138; miscellaneous, \$4,825.

Careless smokers are listed as the main cause of fire with 289 or 28 per cent of the outbreaks being attributed to this cause. Campers and travelers accounted for 217 or 19.5 per cent; lightning caused 173 or 15.5 per cent; burning brush started 11.4 per cent. Seventy-two fires or 6.4 per cent were believed due to incendiaries. Operating railways caused 65 or 5.8 per cent, and industrial operations 4.4 per cent.

Woman Charged After Accident

Mrs. J. Anderson in Court After Collision in James Bay

As a result of an accident on Superior Street on November 7, when a car driven by Mrs. Jessie Anderson, Becher Bay, collided with an inbound street car, Mrs. Anderson was charged in the City Police Court this morning with driving to the common danger.

H. W. B. Moore appeared for the defense, pleading not guilty.

C. L. Harrison and Ralph Mathews, B.C. Electric solicitor, appeared for the prosecution.

Fred W. Doherty, car operator, said he was proceeding east on Superior Street when he saw the Anderson car coming west. As it neared him it turned towards his car and crashed it just under the controls.

Grace A. Cooper, 119 Superior Street, and Betty Mason, 4 Howe Street, young girls who witnessed the crash, testified only one headlight was burning on the Anderson car.

Mrs. Anderson testified there had been trouble with the steering of the car. She turned into the middle of the street to pass a parked car, but was unable to steer back to the side of the road to avoid the crash.

Constable S. Holmes testified he attended the accident and found Mrs. Anderson unconscious. W. Mathews, a passenger, suffered fractured ribs and a lacerated knee.

The case was adjourned until to-morrow for the defence to call Mr. Mathews.

"Will the Finally Impenitent Be Annihilated?"

Ottawa, Dec. 5.—Looking fit and rested, Prime Minister King returned to Ottawa at noon to-day from his holiday in the south. Met at the railway station by Arthur S. Redfern, private secretary to the Governor-General, and Hon. Ernest Lapointe, Minister of Justice and Acting Prime Minister, Mr. King proceeded at once to Laurier House.

The Prime Minister refrained from commenting on any official matters pending consultation with his colleagues. He will meet the cabinet to-morrow afternoon.

BRINGING NEW SHOW

well-known radio announcer of Vancouver and sales promotion manager of the Home Oil Distributors, who will bring the Home Gas Optimists to Victoria next Tuesday. The well-known performers will give their show in the Empire Theatre in aid of the Gyro Christmas Hamper Fund. Last year the Home Optimists put on a splendid show for the Gyro and a large sum was realized from their efforts. Gyro Hampers Are Assembled

First Working Party Gets 600 Boxes Ready to Receive Christmas Cheer For Needy

Piled in a solid mass along one side of the packing room at Gyro Hamper Fund headquarters, 315 Yates Street, 600 assembled hampers this morning were evidence of the efforts of the campaign's first working party, which got down to business under the direction of Louis Giazan.

These hampers have been built up out of the knocked-down boxes returned by last year's recipients. There are 300 more of them to be assembled, ready for filling. In addition to the 900 old boxes, the campaign will shortly receive 1,000 new ones from Canadian Boxes Limited in Vancouver.

The windows of the hampers fund offices in the front of the building have blossomed out with large red signs, painted by Miller and Patterson, with paint donated by Bapco.

Two large carpets have added to the comfort of the registration department office, and more desks, chairs and other pieces of office equipment make their appearance daily.

The drive is under the direction of Harold Butterfield, secretary-manager. His office staff is made up of Mrs. R. Pelton, Miss A. B. Andrews, Mrs. E. C. Snowden, Miss M. Wright, Miss L. MacEachern, Miss M. Campbell and Miss V. Myrles.

The first donations and registrations are beginning to come in at the headquarters in a slow but steady stream. The main flood of donations is expected next week, when the radio appeal series begins.

WINTER VISITORS ARE COMING IN

Winter visitors to Victoria are arriving here in growing numbers to spend the season. Among the latest visitors at the Empress Hotel are Mr. and Mrs. J. R. Redpath of Pincher Creek, Alberta. They were here for several months last winter and plan to remain well into the new year, with the possibility of making their future home here.

The next few weeks will probably see an influx of visitors from the prairies and eastern Canada to spend extended holidays in Victoria.

The usual quota of wealthy California people who come here annually will be expected early in the new year.

The Britannia Branch, Canadian Legion, monthly concert schedule for Friday, December 6, has been cancelled.

Last Cry Of "Cut" Heard

Final Scenes of "Stop, Look and Love" Being Taken To-day. Central Films Will Have Week's Rest Before Next Production

To-night, after more than a month of continuous work, Director Nick Grinde will shout "cut" for the last time in the production of "Stop, Look and Love," the cameras of Central Films Limited will stop turning, the Klieg lights will be turned off, and the last lengths of film will be sent to Hollywood for processing.

Kenneth J. Bishop, producer, announced early this morning that there were only ten more scenes to be taken, and that the work would easily be finished to-day.

For the majority of the staff of Central Films there will be a week of rest. On Thursday or Friday of next week production of a second picture for Columbia Films Incorporated, "The Tugboat Princess" will start here.

Yesterday afternoon the company was out on location at the C.P.R. Belleville Street docks. Shortly after noon the two trucks, one bearing the lights, camera and sound equipment, and the other a powerful transformer to be hooked on to the B.C. Electric power wires, drove down on to the docks and work got under way filming gangplank scenes, with the Canadian Pacific B.C. Coast Service S.S. Princess Marguerite as setting.

This afternoon the company will take horseback scenes at Bowser's Gardens, Terrace Avenue.

"Stop, Look and Love" stars David Manners and Maxine Doyle.

The Victoria Hard-of-hearing Club held its first entertainment yesterday evening in St. Ann's Academy, the demonstration of a group hearing-aid adding much to the enjoyment of the members. Kathleen Redgrave Lavelle sang a delightful group of songs, "Lo, Hear the Gentle Lark," "When I Was Seventeen," a Swedish folk song, and "My Johann." Mrs. John Gough, pianiste, contributed two songs, "The Lark" and "The Bee." Motion pictures were shown by C. R. D. Ferris, through the courtesy of the Bureau of Provincial Information.

LIKES SET-UP OF VICTORIA
Business Lay-out Gives Idea of 100,000 People, Says Portland Visitor

"I like the set-up of this city. It has a beautiful setting, its people are cordial and enterprising, the business section is well laid out, and the stores and window displays are the equal of cities of much larger size. The impression that the visitor gets of Victoria is that it is a city of 100,000 people," said R. L. Brackett of Portland, Ore., at the Empress Hotel to-day.

Mr. Brackett is general sales manager of the fruit paper division of the Crown-Zellenbach Corporation of Portland, controlling a number of important pulp and paper plants in the Pacific northwest, including the Crown-Willamette at Portland and the Pacific Mills Ltd. at Ocean Falls, B.C.

With Mrs. Brackett, he is sailing by the Ma. Aorangi on a holiday tour to New Zealand and Australia. They had planned to take the Mediterranean cruise but, owing to the cancellation of schedules, were forced to change their itinerary.

Their departure was delayed by the holding of the Aorangi by fog. They were not disappointed by the delay, however, as it gave them an opportunity to see more of Victoria.

The trade pact recently negotiated by the King government with Washington will tend to increase the friendly relations existing between Canada and the United States, Mr. Brackett said.

Both countries stand to benefit by the agreement, he said. Mr. and Mrs. Brackett expect to spend the Christmas holidays in New Zealand.

Members of the Metropolitan United Church Y.P.S. listened with much interest to the contribution made to British Columbia's development and progress by the pioneers, as related by Rev. E. D. Braden, a pioneer missionary of the Cariboo.

He spoke of the hardships encountered by James Turner, C. M. Tate, Ebenezer Robson and Alex. Dunn, pioneer clergymen, in bringing the Gospel to isolated settlements. Pioneers of the province, he said, had vision, faith in the future, industry, resourcefulness, rugged individualism, independence, neighborliness and sterling honesty, qualities which might well be emulated by the young people of to-day.

Wall Street Slightly Irregular As Board Leadership Changes

Associated Press

New York, Dec. 5.—Metals and specialty shares took command of the stock market today and forged ahead for gains of major fractions to more than a point despite backsliding rails and other scattered issues.

The closing tone was slightly irregular. Sales were 2,700,000 shares. Shares giving the best performance included a large assortment of motor accessory, oils, metals and alcohol, many of which have been timid. Among these were A. O. Smith, Hercules Motors, McKesson-Robbins, International Nickel, U.S. Smelting, Anaconda, American Telephone, Consolidated Gas, John-Macville, Schenley, Cerro de Pasco, Howe Sound, Standard Oil of California and Mack Truck. Chrysler, General Motors and Steel were narrow.

Rail shares, backbone of the market recently, surrendered the inside track without a struggle and in the absence of adverse news, Union Pacific and Santa Fe, both favorites of international traders, slipped for around a point and smaller losses occurred in Great Northern Central, Pennsylvania, New York Central, Westinghouse, DuPont and Western Union yielded a point or so.

Dorothy Dix's Letter Box

DEAR MISS DIX - I am engaged to a young man whom I love very dearly. We agreed to save our money in separate accounts so as to be able to furnish our home when we are married. I saved mine, but the other day he told me that he had saved nothing. That his money had just all gone through mismanagement. He admits that he is no manager and has offered to give me full control of the money he earns after we are married. What shall I do - go on with the marriage and make up as best I can for the money he should have saved, and didn't, toward establishing a home, or break off with my fiancé? In spite of what has happened I still love him dearly.

ANSWER - You can't put a cash value on love and break off your engagement for no other reason than that your fiancé has holes in his pockets. You would always regret it if you did, though I'll admit that there are few faults that a man can have that are more aggravating to his wife than just to be wasteful with his money. And no fault, not even drink or philandering, can do more to wreck a home.

So you are wise to consider the matter of marrying a spendthrift very seriously, and your decision should depend largely upon your opinion of how sincere he is about letting you manage the family finances after marriage. If he is really and truly going to turn over the keys of the home treasury to you, just a campaign promise, then not so well and good. You will spend the balance of your life standing off the butcher and the baker and wrestling with bill collectors and wondering where the next month's rent is coming from, and that is not a pleasant prospect for any woman to look forward to.

Generosity, impulsiveness, warm-heartedness, optimism, the very qualities that make a man a master also makes him lovable. But they do not make him a desirable husband, because in the end it is the wife and the children who have to pay for the husband's and father's lack of thrift. It is the wife who has to go shabby because her husband lent all the money to a drunken crony, or lost it at poker. It is little Johnny who has to go without shoes because father subscribed \$5 for a floral offering for some one whose name he scarcely knew.

When a man recognizes that he has holes in his pockets, if he has any intelligence at all, he lets his wife sew them up. He keeps out for himself just what he needs for his expenses and turns the balance of his salary over to the little woman, who has a Yale lock on her pocketbook and knows how to keep it shut. How need any man feel that this humiliates him in any way or makes him dependent on his wife. In any event the money would go for the support of the family and she is just being the disbursing officer.

And if he needs to be bolstered up by the example of others, I can assure him that I know personally many famous men, some of them artists and writers, who let their wives handle all of the money they make. They recognize their limitations and know that their gifts do not lie along financial lines. I was once told by an officer on whose ship he sailed that the immortal Kipling went to his wife for money every time he wanted a pack of tobacco.

DEAR DOROTHY DIX - I have been married nine years and have two children, the youngest an infant. My husband fell in love with a girl whom he wanted to marry, but as he was sorry for me he waited until this last child was born before asking for a divorce. At the time he had a good job and a beautiful car and made a good salary, but the Lord doesn't always forget, as I thought he had forgotten me. My husband lost his fine position and his lovely companion fled. Now he is repentant and says he loves only me, and one couldn't ask for a better man. But why should I forgive him and be contented to live with him when he is making a small salary and have to work for him? I can't love him as I did and in my heart is a yearning for revenge, and if I can get work of some kind I am going to leave him and never return.

DETERMINED

ANSWER - There is no ethical reason why you should stick to the husband in his adversity who was so faithless to you in his prosperity. He was going to throw you out to shift for yourself and in strict justice you have a right to accord him the same treatment.

The question for you to decide is one of self-interest. Will you be happier divorced from the man you have loved and who is the father of your children than you are with him? Will it bring you peace and comfort to think of him homeless, wandering around from cheap boarding house to cheap boarding house, eating poor food, sleeping in a shabby room, lacking all the little comforts and attentions with which you have surrounded him for so many years?

Will it give you a thrill to think of his being lonely, missing you and the children, getting drunk to drown out the memory of his folly? Will you find it a pleasant experience to explain to the children why they have no father? Perhaps the children don't think, after they are big enough to understand and judge, that their father's having a silly affair with a girl was enough reason for you to break up their home and deprive them of a father's love and care. You have to think of all of those things, you know, in deciding what it best to do.

Then, do you think you will be better off trying to support yourself and the children than you are with a husband, even if he doesn't earn a big salary? Whatever he makes is probably much more than you could make and it leaves you free to stay at home with the baby instead of putting in a creche all day, and to look after the other child instead of letting him run wild on the streets. The poor woman might seldom improve her condition by divorce. And that is something to consider, too.

Your husband did you a great wrong. I'm not condoning that. But he has repented and he is a good kind man, and you could blind him forever to you if you would be big and generous and forgive and forget his sin against you.

Uncle Wiggily And Squeakie's Present

BY HOWARD E. GARIS

Once upon a time there was a little mouse girl named Squeakie. Her other name was Eekie, so that her whole name was Squeakie Eekie, but all her friends, among whom Uncle Wiggily was one, called her Squeakie. So, if she did the same and you may also.

Squeakie was a cousin mouse. That is, she was the cousin of Jollie and Jilly, the mice children of Mr. and Mrs. Longtail, and she lived with the Longtail family. For Squeakie, like Baby Buntie, was an orphan. Only Baby Buntie was an orphan rabbit.

Squeakie was as fond of Mr. Longtail as if he had been her own daddy mouse and Mr. Longtail loved her and was very kind to her after father and mother were caught in a mouse trap out of which they had tried to get some cheese to eat. It's too bad we mice are so fond of cheese, especially old, loaded cheese. Mr. Longtail often said when he looked at Cousin Squeakie and thought of what had happened to her father and mother, "Bills we can't help it. Oh, how I love cheese! But I hope I don't try to get any out of a trap."

When Squeakie heard her uncle say how fond he was of cheese she knew her Christmas shopping troubles were over. Ever since December began Squeakie, the cousin mouse, had tried to think of something she might buy to give her uncle as a Christmas present. Squeakie had been saving up her pennies.

"I'll buy Uncle Oscar some cheese," decided Squeakie. Mr. Longtail's name was Oscar, as I've told you before.

So, deciding to do her Christmas shopping early and thus keep her tail from getting curly by having it twisted in a crowd of late Christmas shoppers, Squeakie took her saved pennies and set out to buy a Christmas cheese for Uncle Oscar. She crept into a cheese store.

"Old toasty cheese is my little mouse girl!" asked the old rat gentleman who kept the store. "Well, we have plenty of cheese, but they're all fresh and new and none toasty. You could buy your uncle a new cheese for Christmas and he could toast it."

"But would it be an old cheese?" asked Squeakie, who was particular.

"You could make it old by getting it now and burying it in the ground," said Mr. Rat. "New cheese buried in the ground will take on a most delightful old flavor by Christmas."

"Then I'll do that," said Squeakie. So she gave Mr. Rat all her pennies and he gave her a cute, new, round cheese for Uncle Oscar's Christmas present. It was when Squeakie was creeping hom with the cheese that she met Uncle Wiggily. She told him what she had.

"But now that I've bought it I'm afraid I can't bury it in the ground to get ripe,

HOROSCOPE

"The stars incline, but do not compel"

FRIDAY, DECEMBER 6, 1935

According to astrology this is rather an unfortunate day in planetary direction. Adverse stars dominate the morning hours. In the morning hours labor is under sinister planetary influences that appear to foreshadow spread of strikes and other troubles.

Crises in relief work now are forecast and the many will suffer because the few have been dishonest in claiming money. This is a day especially unfavorable to the plans of any person who has numerous political and social ties. There may be many conflicts of opinion, enmities and jealousies.

News that may cause apprehension is expected under this rule of the stars. The stock market may reflect the uncertainty in world affairs.

Much anxiety is indicated for persons high in government offices. Many sinister aspects may bring about sudden difficulties and cause serious problems.

Again Neptune may be expected to menace the peace of nations. Various may be due to mistaken policies.

Persons whose birthdate it is have the luxury of a year of change and upheaval. Care in affairs of the heart is recommended, for deceit is foreseen.

Children born on this day probably will be brilliant in mind and forceful in character. Subjects of this sign may climb to the top of any profession.

Edward H. Sotherton, famous actor, was born on this day, 1855. Others who have celebrated it as a birthday include Joseph Conrad, author, 1857, and Friedrich Maximilian Schiller, philosopher, 1758.
